

**Robert Guzzetta, Vice President  
California Water Service Company  
Board of Directors  
Bay Area Water Supply & Conservation Agency**

Rob Guzzetta is a member of the Board of Directors of the Bay Area Water Supply and Conservation Agency. Guzzetta was appointed to the board in June 2005 by the San Mateo County Board of Supervisors as an officer or employee of California Water Service Company (Cal Water).

Guzzetta serves as Vice President of Operations for California Water Service Company. Prior to taking that position in October 2005, Mr. Guzzetta was a member of the California Water Service Company engineering staff since 1977, working in various positions in design and operations before being appointed Assistant Chief Engineer in 1988 and Chief Engineer in 1990. In July 1996, he became Vice President – Engineering and Water Quality. He has played a major role in the continuing development of the Company’s computer-based water system controls. Guzzetta has served as chair of AWWA’s management Computer Systems Committee of the California-Nevada Section and as a member of AWWA’s Engineering Computer Applications Committee.

Guzzetta is the Responsible Managing Officer for California Water Service Company’s Class A General Engineering Contractor’s License.

He is actively involved in water supply issues and has served as Vice President of BAWSCA’s predecessor organization, Bay Area Water Users Association.

Guzzetta is a San Jose native, where he lives with his wife and children. Guzzetta holds an MS and BS in Civil Engineering from San Jose State University. He is a Registered Professional Engineer and is a member of the Professional Societies of American Society of Civil Engineers, and American Water Works Association (AWWA)
