

BAWSCA "Making Conservation a Way of Life" Strategic Plan – Phase 1
Consultant Questions and Answers
July 18, 2017

1. Final Report on Executive Order B-37-16 states that EO Agencies will be developing standards for landscape area measurement and provide opportunities for public input. Does BAWSCA expect the scope of Task 2 (Assess Outdoor Landscape Area Measurements Existing Capabilities and Best Practices) might include helping BAWSCA interface with DWR on topic?

It is anticipated that BAWSCA staff will directly interface with DWR on the standards for landscape area measurements. Consultant support may include review of proposed standards developed by DWR or stakeholder groups to evaluate technical feasibility and impacts to the BAWSCA agencies.
