What does QWEL offer?

- QWEL is recognized as a [WaterSense](#)[®] labeled Professional Certification Program.
- The training focuses on water-saving sustainable landscaping techniques.
- A sample of topics covered include: Soils, Landscape Water, Water Budgets, Irrigation Scheduling and Site Irrigation Auditing.
- Those who become QWEL certified by passing the exam and completing the irrigation audit, will be listed as an industry pro on the QWEL website.

Who should attend?

This class was designed for those working in the landscape and water industries including but not limited to: landscape designers, landscape supervisors, maintenance and irrigation technicians, and park maintenance staff.
